

Announcement and invitation to present a paper

15th GERMAN LS-DYNA FORUM 2018

15 - 17 October 2018, Bamberg, Germany

Courtesy of Daimler AG

Call for papers

Dear LS-DYNA user,

we kindly invite you to participate at the 15th German LS-DYNA Forum and encourage you to actively contribute to the conference agenda by submitting a presentation about your experience with the LSTC product range. Participation without a presentation is also worthwhile to exchange your knowledge and discuss new solution approaches with other users.

Besides presentations from users, there will be also selected keynote lectures of renowned speakers from industry and universities as well as developer presentations from LSTC and DYNAmore. The popular workshops on various topics will also be continued.

We hope that we have stimulated your interest and are looking forward to receiving your abstract and to seeing you in Bamberg.

Forum

Attending

In user presentations from industry and academia you will learn more about the software packages LS-DYNA, LS-OPT, LS-TaSC und LS-PrePost as well as their application possibilities for virtual product design.

Presenting

Communicate your work with international colleagues to share knowledge and to stimulate discussions with other users about new solution approaches.

Exhibiting and sponsoring

In the accompanying exhibition, numerous hardware and software manufacturers offer an insight into the latest news and trends around LS-DYNA. If you want to contribute, please request additional exhibitor and sponsoring information.

Venue

Welcome Kongresshotel Bamberg

The congress venue with its impressive architecture between industrial and feel-good lifestyle is a well known host for conferences. Located right on the banks of the river Regnitz, the hotel is only a few walking minutes away from the historic city center of Bamberg.

Address:

Welcome Kongresshotel Bamberg
Mußstraße 7
96047 Bamberg, Germany

Bamberg

The beautiful German city with its historic center is listed as an UNESCO world heritage site since 1993. It is an outstanding example of a central European city that has grown and evolved around a core from the Middle Ages, which forms one of the largest intact old town centers in Europe.
